Eduardo Carrada
Technical Product Manager

EXPERIENCE

Technical Product Manager (99minutos)

Jan 2021 - Oct 2023 - 2 year 10 months, Mexico

🌐 Responsible for defining and leading the development and implementation of the WMS for global operations, effectively integrating it with other systems such as TMS.

✨ Founded and led the Design System team, and also funded the Technical Writing team.

🚀 Advocated for the adoption of agile practices in software development.

👷 Assumed the role of Tech Lead in frontend development, overseeing and actively participating in the creation of more than 12 critical projects.

Software Engineer (NetLogistik)

Mar 2018 - Jan 2021 - 2 years 11 months, Mexico

🌟 Held the position of developer and Scrum Master for the company's flagship product, "DNA Logística".

🔄 Worked as a fullstack developer on various products, including the company's TMS and other custom products focused on logistics and supply chain.

👥 Collaborated as an active member of the Design System development team, contributing technical expertise and design knowledge.

🎨 Worked closely with the UX/UI team to establish an effective working framework that reduced the design and development time of products.

Software Engineer (Decidata)

Aug 2017 - Mar 2018 - 8 months, Mexico

🤝 Acted as a liaison between operations and development teams, facilitating communication and collaboration between both areas.

🛠️ Managed and coordinated the development and maintenance of the Decidata platform.

👷 Served as a fullstack developer on the platform.

EDUCATION

Bachelor Computer Engineering (IPN)

2013 - 2017, Mexico
